EDUCATION

- **University of Pacific** — Lima, Perú
  Master in Finance - Invesment Portfolio Management — *Dic. 2014 – Dic. 2016*

- **National University of Engineering** — Lima, Perú
  Bachelor in Systems Engineering — *Ene. 2003 – Dic. 2009*

EXPERIENCE

- **Everis** — Lima, Perú
  Centers Leader Specialist — *Sept 2020 - Today*
  - **Leadership**: Mentoring junior members of the team, evaluating development work efforts and quality.
  - **Backend Developement**: DB Modelling (SQL Server, MySQL), MVC Application Development (CSharp), REST Service Development (CSharp, NodeJS, Express).
  - **Front-End Development**: UI Prototyping (Justinmid), Front-End Components Development (HTML,CSS,JavaScript, TypeScript,NodeJS), JS Frameworks (React and Angular).
  - **DevOps**: Kanban Board (MS Planner), GIT Repositories (Azure Devops), Pipelines (Azure Devops)

- **Certero** — Lima, Perú
  Solutions Architect — *Feb 2017 - Mar 2020*
  - **Data Architecture**: DB Modelling (SQL Server), ETL development (SSIS, Azure Data Factory), dashboard designs (PowerBI).
  - **Web Application Development Full Stack**: Forms Design and Prototyping (UX/UI), Front-End Components Development (HTML,CSS,TypeScript, NodeJS, React), MVC .NET Application Development.
  - **Applications Architecture**: Business and Application Layer Design, Process Mapping (BMPN), REST APIs Consuming and Building (.NET Core, NodeJS).
  - **DevOps**: Kanban Board (Trello), GIT Repositories (Gitlab), Containerization (Docker).
  - **Cloud Architecture**: Cloud Components Design (Azure), Script automating (Azure Cli, Powershell)   .

- **Evol TS Net** — Lima, Perú
  SharePoint Expert Consultant — *Ene 2014 - Ene 2017*
  - **Server-Side Development**: Building SharePoint server-side components (Webparts, Event Receivers, TimerJobs). MVC Application development and WCF Services for integration with SAP.
  - **SQL Server**: Database modelling. DB Components Building (T-SQL). Queries optimization (indexes, temp tables).
  - **HTML, CSS y JS**: Redesigning Front-end components for an Intranet using UX Design methodologies, responsive design (Bootstrap) and JS Libraries (JQuery, Knockout).

- **CGI** — Lima, Perú
  SharePoint Developer — *Dic 2011 - Dic 2013*
  - **SharePoint Server**: SharePoint Farm configuration, and building new server-side components.
  - **SQL Server Integration Services**: Building ETLs for integration between SQL Server databases and Flat CSV files.

PROJECTS

- **Developing custom Instituional Portal - Fonafe**: Developing custom Content Management System using .NET Core, REST APIs, and MVC for Backend, and Angulas JS and Bootstrap for FrontEnd.
- **Developing custom Intranet - Acciona**: Designing wireframes and Prototyping using Justinmid. Developing SharePoint Framework webparts using React, TypeScript and Fluent UI.
- **Automating MBP Process - Nestlé**: Automating monthly business planning (MBP) process. Modelling process (BPMN) an database (tables, views, stored procedures, indexes, keys) using SQL Server.

PROGRAMMING SKILLS

- **Languages**: : CSharp, Java, Python, Javascript, TypeScript
- **Frameworks**: : .NET Framework, .NET Core, React JS, Express JS, Jest
- **Methodologies**: : Waterfall, Agile, Kanban, DevOps
- **Idioms**: : Spanish - Native / English - B2 Upper Intermediate
